Our Story

Woolyknit is an online shop that stocks a wide variety of products for all your crafting needs. We specialise in 100% Wool products but have lots of different types of Wool for all your creations. These include products for hand knitters, machine knitters, weavers, dyers, crocheter's and spinners.

All Woolyknit wools are sourced from regions of the world where the process of mulesing is not carried out.

Woolyknit was founded by Roger Shepley of Shepley Yarns LTD. He utilises his lifetime's knowledge within the spinning and wool processing industry to create original yarns and fibres for both retail and wholesale customers.
